IN THIS EDITION:

Introducing the new President – welcome John Brand

End of year party, Movies, meals, art and exercise, something for everyone

A note from the new SCCC president

After more than a year of looking within a 2 hour radius of the city, Erin-Marie and I settled on moving to Steels Creek. Actually, it was one of the first locations we'd looked at. We discovered it entirely by chance. We'd taken a leisurely drive through the northern suburbs, back through Eltham, Christmas Hills and then down Steels Creek Road. We stopped and turned around about halfway down – probably just before the community centre. Our assessment? We loved the community feel...but decided it was just too far!

The interesting thing is, when we both look back, we agreed it had a great community feel – yet neither of us had put a foot out of the car or even talked to a single local at any stage of our trip. We'd made our assessment based on what we'd seen; in the landscape, the houses, the livestock, the vineyards, and the people working in their little patches of paradise.

We'd come from Acland Street, St Kilda – an archetype of diversity in urban living. That's what we decided we liked about Steels Creek too. The community feel and the diversity it embraced.

Ok, so we hadn't counted on the 2009 bush fires (well, actually we had...but convinced ourselves that we were never really under any threat in the middle of a vineyard!) but that experience yet again showed us the true mettle of the community. We could have left Steels Creek. We seriously considered it. Financially, we certainly would have been better off. But we decided to stay, and again, it came down to the community.

Now, it's worth noting that I'm a big one for embracing the mantra that "communities are made up of individuals". I'm not a big one for "everyone must get together and get along" necessarily. To me, community is just as much about the people who don't regularly connect as those who do. Community is something people should *want* to feel engaged with – if and when they feel like engaging. Not forced, over organised, or with any expectation.

So it is with some poetic justice that I find myself the new president of the Steels Creek Community Centre committee. "Such is life" as they say.

The committee is still looking for someone to fill the Vice President's role so if you're reading this and have similar feelings, please nominate yourself!

With that background out of the way, I'd very much like to thank the other members of the committee who have stayed on to serve another term. I'd especially like to thank David Allan, our outgoing president. Even after moving away from the valley, David continues to be involved in supporting this committee. That's real community right there. So far, my experience has been that there are a few noble and passionate people that have put themselves forward as true ambassadors for this community. They're not *always* the same people, but often, they are.

The community centre is one of the various hubs that Steels Creek and nearby residents can utilise, in whatever way that they see fit. I believe the role of the committee is to look after the precious asset endowed to us so that various groups and individuals do feel like it is there for them, as much as anyone.

The centre has already been well adopted by various interest groups and is starting to be used more by individuals for family and group functions as well. It's great to see how the centre is being used and enjoyed today. So the committee's role will be to preserve, administer, and enhance the facilities so it can be enjoyed for many more generations to come.

Daylight Savings Time begins at 2am on Sunday, 4 October – Clocks AHEAD one hour.

S4Reel Film Club

Guaranteed laughs; suspense; and drama together with fine food and good company. Join us for our "End of Season" BBQ Dinner and movie in our Gold Class venue.

- Screening Friday 16th October : Arsenic and Old Lace (1944)

Cary Grant heads a stellar cast, directed by Frank Capra, as they romp through this classic farce based on a 1941 Broadway hit. Newly married Mortimer Brewster (Grant) has, amongst other problems, two dear old Aunts who ply lonely old geezers with dodgy cocktails. His efforts to handle this and other complications are hilarious and he is at his comic best. (see more from the [IMDB.com database](http://IMDB.com))

European Wasp Control

The Friends of Burnley Gardens have provided this information to enable us to rid ourselves of the dreadful European wasp problem each summer. This trap costs only a few cents to make, and if we all do it, it should make a big difference to the wasp population in the coming months.

Spring is the time to catch the QUEEN wasp before she makes a nest using a simple environmentally friendly method. Commence in October as this is the optimum time for success.

Method:

- Use a 1.25 litre soft drink bottle with 3 holes approximately 10mm in diameter and about 100 - 150mm from the bottom of the bottle.
- Use a bait made from honey, water and a little pure vanilla essence (which has alcohol in it) this ferments in the sun.
- Make up a solution of 4-5 tablespoons of honey in hot water with a little pure vanilla essence. This will do 4-5 traps.
- The bait will take a couple of days to activate.
- Divide the bait between traps, top up with water to just below holes, replace cap and hang in a sunny spot in the garden - Fruit trees with curly leaf is a good place.
- Shake every few days to let bait dribble out.
- Keep in place until January.
- Strain out when full, reuse and top up bait with water.
- The traps need a little tending until January, meaning once full you need to remove the catch (wasps), reusing and topping up the bait, then replace the cap

Garden Club

The wonderful and much anticipated calendar highlight, namely the **Steels Creek Flower Show** is fast approaching. The date just in case you have not heard is Saturday, November 7th, 9.00 am to 2.00 pm. As always, a chance to purchase healthy plants at rock bottom prices.

In October the garden club outing is a bit of a mystery tour. Meet at the Yarra Glen Park at 9.30 on Tuesday 13th October if interested.

The flower show would not be possible if not for the volunteers that grow plants all through the year. They meet on the last Monday of the month at 9.30 at the Steels Creek Community Centre. You do not have to have a green thumb to participate. Lots of willing gardeners are only too happy to share their knowledge.

Food For Thought.

According to the ABC Health and Wellbeing online Watercress is the number one green veggie you can eat. Kale came in at number 15. I bet there are a few people out there feeling relieved they are so Kaled out!

Words of Wisdom.

'We have not inherited the earth from our fathers. We are borrowing it from our children'.
Native American saying.

Stitchers

Each Tuesday 1.30 pm – 4.00 pm

Stitchers are presently concentrating on joining together knitted squares, some of which have been donated, others we have knitted ourselves, into cosy knee rugs to be donated as we find the need. We like to feel that our rugs will carry with them both physical and emotional warmth!

We are delighted that Iris has been able to join us on a number of occasions recently, she really is an inspiration to all who know her, truly an honoured elder of the community.

WEATHER REPORT

Rainfall for August was 8 mm above average but September was 38 mm below average which is less than half the average for the month. We are now 115 mm below average for the year so far. There was a high river event at the end of August with the water level reaching 3.7 metres on the 30th & filling a lot of the billabongs on the flood plain. The average daily maximum temperatures for August in the Melbourne area were slightly below average with Coldstream being 1.4° below average.
