

## Understanding Bushfire Warnings & Advice

There are three different levels of warnings:

- **Advice:** An incident is occurring or has occurred in the area. Access information and monitor conditions.
- **Watch and Act:** An emergency is heading towards you. Conditions are changing and you need to start taking action now to protect yourself and your family.
- **Emergency Warning:** You are in imminent danger and need to take action now. You will be impacted.

The warning level is based on incident conditions and impact on the community; therefore, the first warning issued could be an Emergency Warning - the highest level of warning.
