Have your say about a **Renewable Energy Project** for Yarra Glen

In June 2016, the Yarra Glen People's Panel recommended that proceeds from the sale of land at 39-41 Bell St be spent on the Yarra Glen Circuit River Walk and a renewable energy project.

Three potential models for the renewable energy project have been identified. Each model aims to use renewable energy to deliver economic benefits to the Yarra Glen community. Yarra Glen community members can learn more about these models and have their say in the following ways:
